Intelligent Air Balancer

REAL TOOLS FOR REAL WORK.™

Defy Gravity to have the perfect ergonomic solution

Zero Gravity – New air balancer control kits

Finding the perfect fit for your ergonomic needs can be proven to be more complicated than expected. The air balancer control kit, Zero Gravity has been designed to be installed on our Ingersoll Rand BW air balancers to extend their possibilities. It can easily fit any lifting application and increase operators capabilities to its maximum.

Handling device fully piloted through integrated software.

Any load can be balanced automatically, once the load is lifted and stable (allowing the operator to have a direct control on it without touching any button)

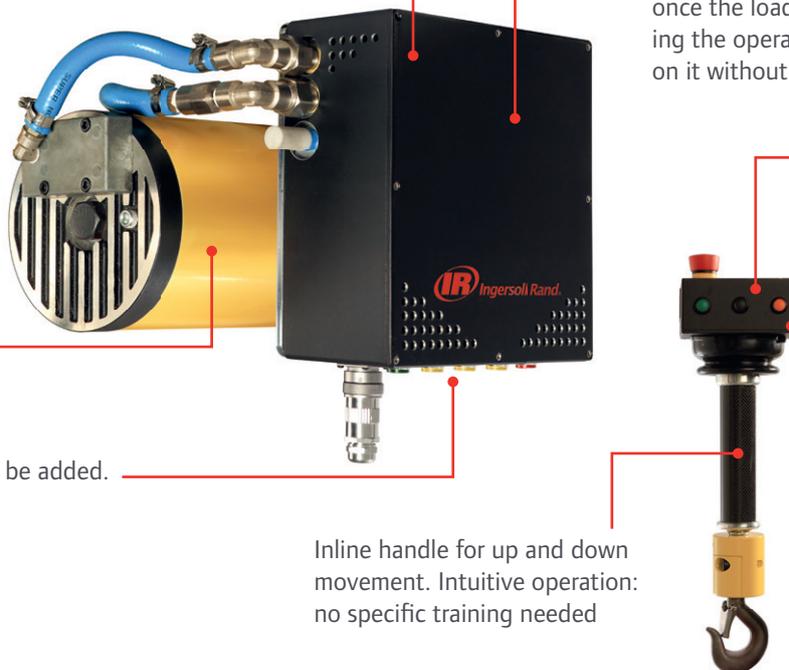

Proven Ingersoll Rand air balancer.

Very flexible, in and out can be added. For your specific application (packaging, assembly etc.)

Inline handle for up and down movement. Intuitive operation: no specific training needed

Only 2 buttons, ON-OFF and Emergency stop

Possibility to control any handling device thanks to 3 available inputs/outputs (orange and black buttons programmable)
